A FELLOWSHIP
FOR WORLD CHANGERS

A fellowship of leaders can generate a more humane, equitable and ecologically sensitive world order, which they evangelise, and act decisively to create.

LEAD LIKE GANDHI

A FELLOWSHIP
FOR WORLD CHANGERS

The Lead Like Gandhi Fellowship is a one year immersive journey into understanding yourself through Gandhi's values, actions and leadership.

Senior leaders from across the world will derive knowledge, inspiration and the tools to affect global change.

The essence of Sabarmati Ashram is rooted in personal transformation. People from across the world come to derive inspiration from the sacred space. We pray that the Lead Like Gandhi Fellows inquire deeply into themselves, discover their own sacredness, and create magical outcomes for the world.

A FELLOWSHIP
FOR WORLD CHANGERS

“ If you want to change the world, it is necessary to be a good person, but hardly enough. You must also change the institutionalised structures that have caused, and that continue to create social and economic deprivations. Gandhiji’s ‘The Journey of My Experiments with Truth’ was a deep mission. He believed that, not only feelings in the heart, but ideas embedded in the mind must be examined and changed too to make the world more just. ”

Arun Maira

Transformation & Seva

Deeply inspired by Gandhiji's own leadership and life. Here are a few key takeaways from this fellowship.

Transformation – becoming zero or near zero ego, cleaning the past, transforming all close relationships, discovering one's Life purpose, and putting this into action.

Experiential learning of Gandhiji as an extraordinary human being and a leader. Hands-on working with the community on the ground, to truly get “sewa” or true service, and empathy for one's fellow beings.

A deeper understanding of Gandhi's life and work, that will generate one's own version of a Gandhian way of being.

Fellowship Design

An incredible immersive journey of 8 days combining experiential learning through visits that bring alive Gandhiji's life, philosophy and values, role plays, peer learning and tête-à-têtes with Gandhians, transformational sessions that allow each one to go within & emerge in their greatness and contemplative sojourns providing the space for insights and realisations to emerge.

“ The leitmotif of Gandhiji's message really is: that morality and selflessness must guide our actions and, if we are able to steadfastly stay the course in this respect, success will come. ”

“ For many it seems that it is much simpler to take the easier wrong than the harder right. But, to address the long term health of society and our planet it is time that we face the harder right. ”
